ZOO

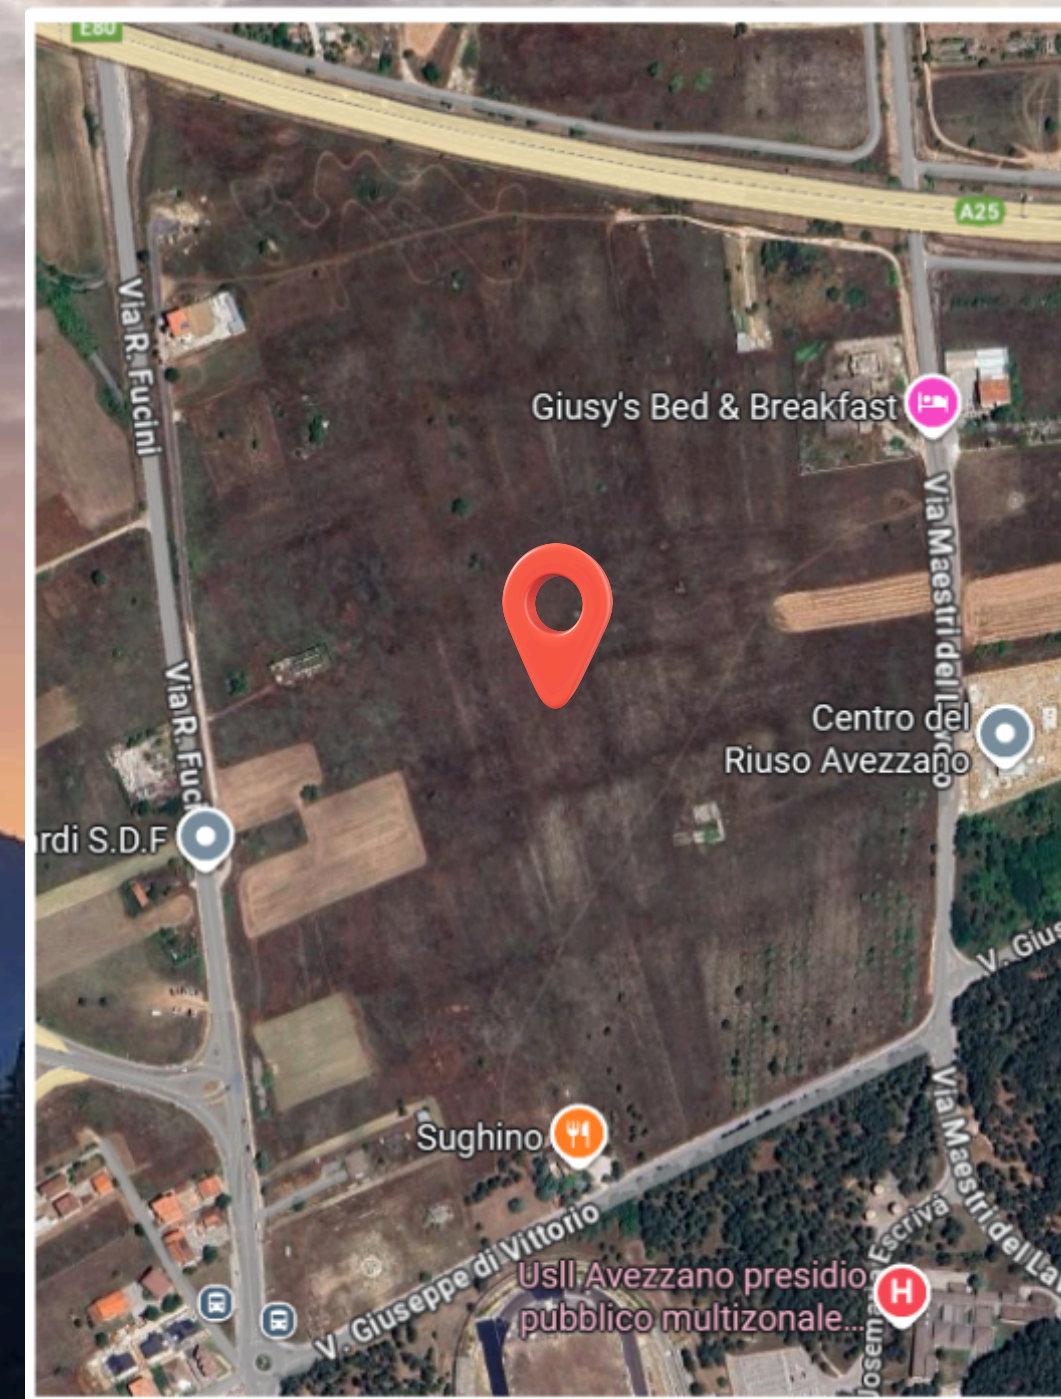

MARSICANO

Here, nature speaks — it's up to us to listen.

Nature isn't far away, it's right before our eyes.

This slogan sums up our zoo's goal. We often don't realize how lucky we are to be surrounded by such splendid nature. Here, we offer tourists of all ages the opportunity to see all the area's typical animals. We are located in Avezzano, street Giuseppe DI Vittorio

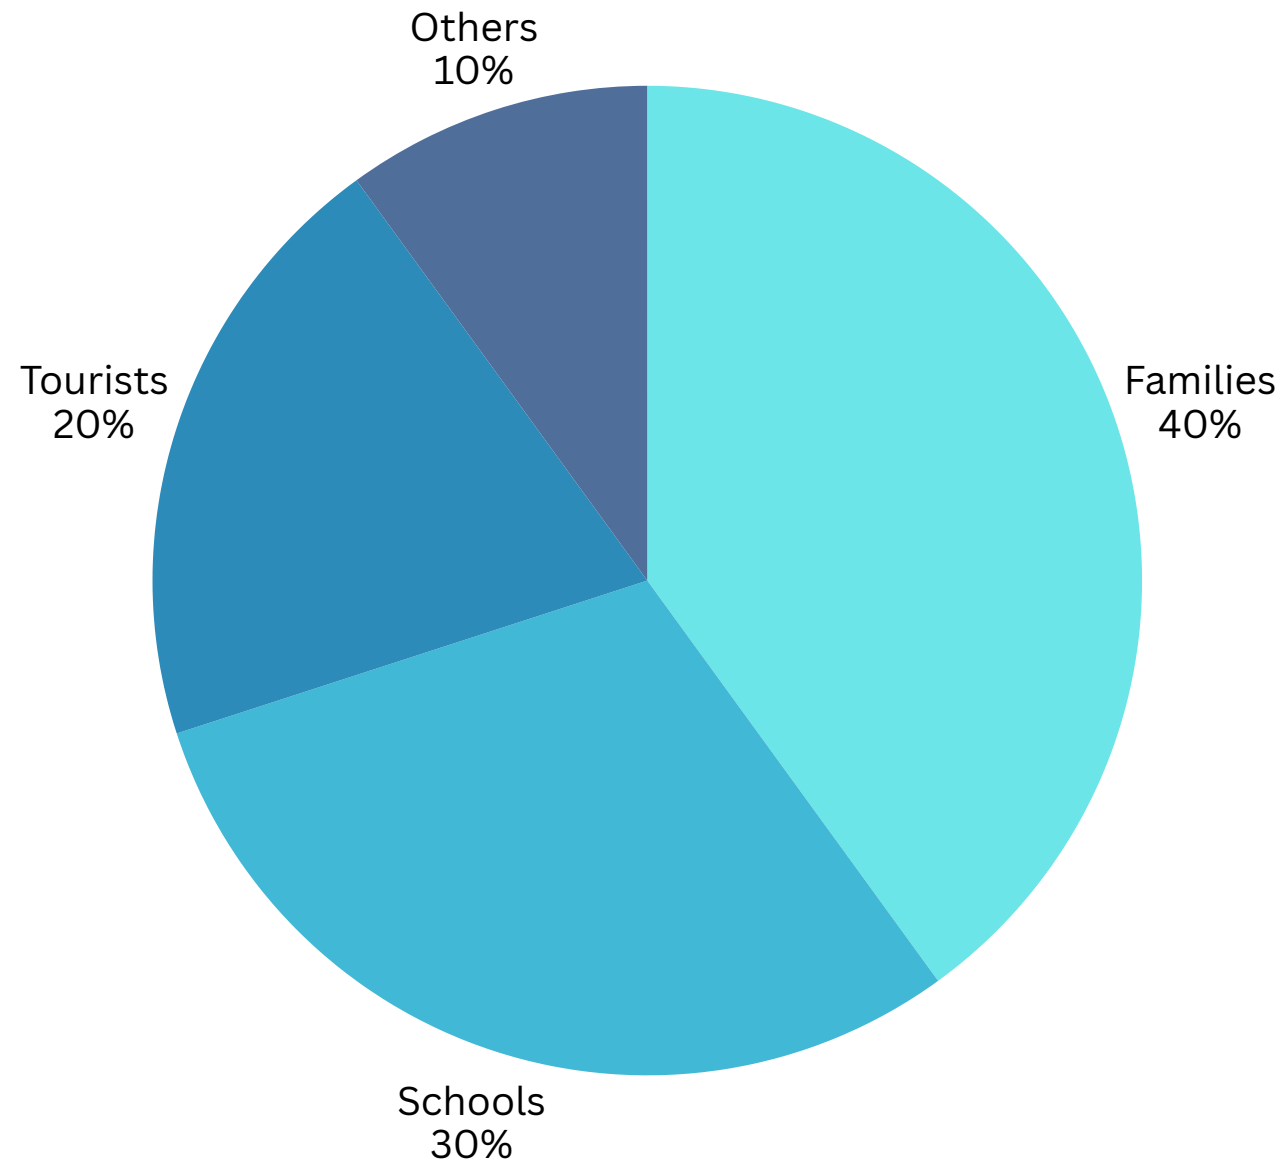

ABOUT US

PROTOPERSONAS

Families with children:
Our center can be a great family pastime. Parents are looking for a place to spend a day entertaining their children in a safe environment, while the children learn more about the animals and nature of the area.

Schools and tourist groups. Other 10% tourists 20% schools 30% Our center can also help schools or organized groups find a place to spend an educational day, helping them understand the importance of respecting nature.

ZOO

OUR BENEFITS

It offers the opportunity to enhance the area, boost tourism and the local economy. The location near large cities and the Abruzzo National Park is ideal for an educational attraction that integrates with nature. The zoo could promote the conservation of endangered species, create jobs, and become a point of reference for families and schools, providing an excellent hobby.

OUR ANIMAL

ZOO

WOLF

The wolf is a social predator that lives and hunts in packs. It is intelligent, agile, and plays a key role in maintaining ecosystem balance.

WILD BOAR

The wild boar is a strong and adaptable animal found in forests and fields. It is omnivorous and known for its toughness and sharp tusks.

DEER

The deer is a graceful herbivore that lives in woodlands and open areas. It is fast and alert, using its keen senses to avoid predators.

OUR ANIMAL

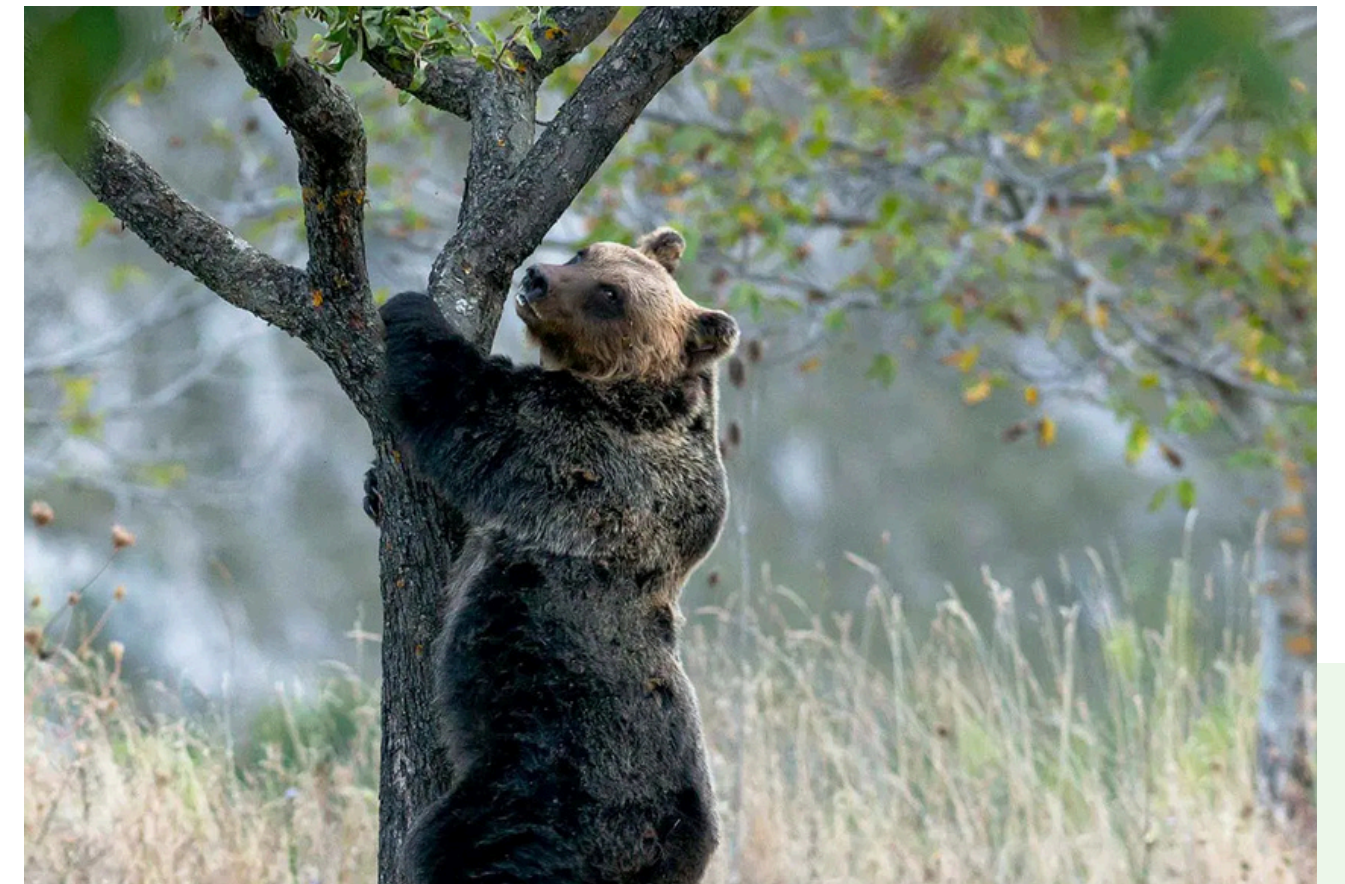

FOX

The fox is a clever and curious animal with a bushy tail. It adapts easily to different environments, from forests to cities.

BEAR

The bear is a large and powerful mammal with great strength, it's the symbol of the zoo

OUR ANIMAL

GRIFFIN

The Marsican Griffon Vulture (*Gyps fulvus*) is a large vulture found in the Apennine Mountains of central Italy. It is easily recognized by its pale, whitish neck, powerful hooked beak, and very wide wings, which allow it to soar for long distances

EAGLE

is a large, powerful bird with broad wings and a sharp, hooked beak. It is known for its keen eyesight and strong talons, which it uses to hunt. Eagles often soar high in the sky and are a symbol of strength and freedom.
